An Early Fourth in Paw Paw.

On the 4th of July 72 years ago we bid good-bye to the place of our birth in the old Green Mountain state, and with horse teams wended our way to Monroe county, N. Y. General Jackson was then serving his first term as president. July 4, 1832, I attended a celebration, or rather a Jackson jubilee, at Churchville, that county, it being during Jackson's second campaign. A small cannon which had been used to boom "Old Hickory" and the democratic cause exploded, but fortunately did no damage except breaking the arm of one man.

We first celebrated our nation's birthday after our arrival in Michigan, July 4, 1836. Our jubilee grounds were on the bluff east of where Briggs mill is now located, and our artillery was a blacksmith's anvil managed by Rodney Hineckley, and a white ash stump strongly banded with iron, with a large auger hole bored in the top of the stump. Thus the white ash stump and the old anvil were utilized in proclaiming the return of our glorious national day. Mr. Craig Buysse was manager the stump artillery. He was the first blacksmith who located in what was called the "village," his cabin and one other being the only structures on the south side of Main street between Groups street and the river. Except the thunder of our artillery there was no great demonstration, such as bands of music, waving banners and patriotic speeches. Oh, no, none of this, but we did the best we could under the circumstances. As far as I can recollect, I am the only survivor of the group that participated in "booming" our independence day in Paw Paw 67 years ago. D. WOODMAN.

Red Light for Smallpox.

In a recent article in a widely read magazine on "Niels Finson and His Heating Rays" it is said: "All the world might now have smallpox without fear of disfigurement." The red-light treatment was experimented with long before and much since that publication, and the results show the quoted statement to be unwarranted.

Diphtheria relieved in twenty minutes. Almost miraculous. Dr. Thomas' Electric Oil. At any drug store.

French "ad" Agent Dies.

Pierre Celestin Cerf, a member of the firm of La Grange et Cerf, the greatest advertising contractors in France, who has just died, was seventy-seven years old. M. Cerf was intimately bound up with the history of the French press in the last half century. He had in many instances aided papers by paying them an annual sum for their advertising space.

No False Claims.

The proprietors of Foley's Honey and Tar do not advertise this as a "sure cure for consumption." They do not claim it will cure this dread complaint in advanced cases, but do positively assert that it will cure in the earlier stages and never fails to give comfort and relief in the worst cases. Foley's Honey and Tar is without doubt the greatest throat and lung remedy. Refuse substitute. E. B. Longwell.

Canada's New Pacific Road.

The new railroad through Canada to the Pacific coast will pass through vast regions never heretofore explored.

Two Bottles Cured Him.

"I was troubled with kidney complaint for about two years," writes A. H. Davis, of Mt. Sterling, Ia., "but two bottles of Foley's Kidney Cure effected a permanent cure." E. B. Longwell.

Nothing to Be Thankful For.

"There's A., the landscape painter," said a crayon man to John S. Sargent, the artist. "He neither drinks, smokes, nor stays up nights. He'll live to a great age." "That's his punishment, and art's, too," replied Sargent.—New York Times.

A. R. Bass, of Morgantown, Ind., had to get up ten or twelve times in the night, and had a severe headache and pains in the kidneys. Was cured by Foley's Kidney Cure. E. B. Longwell.

First Negro Graduate.

Lawyer Taylor, the first colored graduate of the Northwestern university, has spent seven years in study at the college, and is regarded as one of the most capable men in the senior class. Mr. Taylor lives at Austin, Tex., and after his graduation expects to become an instructor of mathematics in Atlanta university.

When other Medicines have Failed Take Foley's Kidney Cure. It has cured when everything else has disappointed. E. B. Longwell.

Must Have Great Capacity.

Sandusky (Ohio) brewery men, who get ten pints of beer each per day gratis, have threatened to strike if the allowance is not doubled.

No Pity Shown.

"For years fate was after me continuously," writes F. A. Gullledge, Verbena, Ala. "I had a terrible case of piles causing 24 tumors. When all failed Bucklen's Arnica Salve cured me." Equally good for burns and all aches and pains. Only 25c at Longwell Bros' drug store.

The Benefits of Rain.

In parts of Australia where the average rainfall is not more than ten inches, a square mile of land will support only eight or nine sheep. In Buenos Ayres the same area, with 24 inches of rain, supports 2,500 sheep.

A little life may be sacrificed to an hour's delay. Cholera infantum, dysentery, diarrhoea come suddenly. Only safe plan is to have Dr. Fowler's Extract of Wild Strawberry always on hand.

Fond of Old Stories.

Senator Depew while acting as president of the New York Central road was approached for a pass to Syracuse three years in succession by a man with the same pitiful tale of a mother's illness and the strong desire of the applicant to see her once again. Through his sympathetic nature he had yielded each year, but upon the last occasion with an admonition that the application should never be renewed. Much to his surprise, upon entering his office one morning the following year he found the applicant, with identically the same recital.

"How dare you come here again with that old story?" he exclaimed.

"Why, Mr. Depew," blandly replied the applicant, "I thought that you were fond of old stories."

The cloud fell from Chauncey's face, a smile overspread his features which broadened into a hearty laugh, and as soon as he could recover himself he sat down and wrote out the annual pass.
